Portfolio

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Computer Science & Engineering	KL University	2022-2026	9.72
Intermediate	Physics, Chemistry, & Mathematics	Sri Chaitanya College	2022	91.3
SSC	Physics, Chemistry, & Mathematics	Bala Kuteer School	2020	88.6

INTERNSHIP EXPERIENCE

- **Internship** [IBM SkillsBuild] | [Link](#). May-Jun 2024
 - Completed a project on **DDoS Attack Prediction**, utilizing machine learning algorithms to analyze network traffic patterns and predict potential Distributed Denial of Service (DDoS) attacks. Achieved **95% accuracy** in detecting DDoS attacks using classification models such as Random Forest and Support Vector Machines (SVM). Contributed to reducing the false positive rate by **30%**.

PROJECTS

- **RetailCo – Omnichannel AI Conversational Sales Agent** | [Link](#). Sep-Oct 2025
 - Built an AI-powered omnichannel retail assistant using FastAPI, React, and Telegram, enabling seamless shopping across 2 customer channels with shared context and session continuity.
 - Designed and implemented a 6-agent architecture (Sales, Recommendation, Inventory, Payment, Fulfillment, Loyalty) coordinated via a master orchestration graph. Integrated Telegram chatbot (@RetailCoAssistantbot) achieving real-time conversational commerce with <200ms response latency using Redis caching.
- **AgriMind:Agentic AI Advisor with RAG and Predictive Intelligence** | [Link](#). July-Aug 2025
 - Designed and implemented a production-ready AI assistant for farmers that integrates RAG, Agentic reasoning with APIs and ML models.
 - Built retrieval pipelines with LangChain, Pinecone, and OpenAI embeddings for context-aware answers.Developed agentic workflows with custom tools to call APIs ,dynamic model selection.
- **Bharat Coin Bazaar | MERN Project** | [Link](#). Jan-May 2025
 - Created a fully functional **online e-commerce website** using the MERN stack. Implemented **user authentication and authorization** using JWT to ensure secure access to user accounts and transactions.
 - Implemented **Razorpay payment gateway** for seamless and secure online transactions
 - Designed and developed responsive UIs with **React.js** and **Material UI**, providing a smooth and engaging experience across all devices.
- **Social Media App with WebSockets | MERN Stack Project** | [Link](#). Sept-Dec 2024
 - Developed a real-time chat application , enabling instant messaging via WebSockets for interactive communication. Designed and deployed RESTful APIs following best practices

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript , C
- **Development Stack:** MERN Stack, FastAPI, MySQL, MongoDB, PineCone, Neon , React , Express , Node , HTML, CSS , LangChain
- **Certifications:** Salesforce AI Associate [🔗](#), RedHat EX-183 [🔗](#), Wipro Talent Next Java [🔗](#)
- **Academic Coursework:** DSA, Object-Oriented Programming, DBMS, Machine Learning, Deep Learning, GenAI, AgenticAI
- **Tools/Platforms:** Git, GitHub, VS Code, Postman, PyCharm

ACHIEVEMENTS

- **Flipkart Grid 5.0 Finalist**
Selected among 2,000 out of 400,000+ participants (0.5% selection rate).
- **BOSCH x Tinkerers' Lab Hackathon, IIT Hyderabad** – Finalist (Top 15 out of 100 teams)
- **Odyssey of Code - ConsultAdd Hackathon** – Secured 6th place; recognized for innovation and problem-solving in a high-performance coding competition.
